The Board of Studies considered [redacted] STAT
proposal at its 18-19 June
meeting [redacted] opting to post-STAT
pone a final decision for 10 days
so that the members could consult
and ponder before registering
their decisions with the D/CSI.
(During the meeting several
members voiced the opinion that
[redacted] work seemed to have STAT
little relevance generally
speaking and to be far removed
from CSI's areas of interest.)

The members were polled by
the D/CSI on 30 June. There is
one vacancy on the Board which
ought to have 11 members. In the
vote, one member abstained (he'd
previously sat on a panel that
had rated [redacted] in the STAT
lowest 3%); nine were negative--
with ten votes registered.
